PRASHANT KUMAR

Frontend Developer (React.js)

7972052896 | prashant2009kr@gmail.com | Baner, Pune – 411046 | Open to Remote & On-site Roles

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of hands-on experience building scalable SaaS CRM platforms using React, Redux Toolkit, and Tailwind CSS. Specialized in reusable component architecture, performance-optimized dashboards handling large-scale datasets (10k+ records), and API-driven interfaces. Proven ability to lead frontend delivery end-to-end in agile product teams, with a track record of measurable performance improvements and faster development cycles.

PROFESSIONAL EXPERIENCE

Software Developer (Frontend) — Feb 2025 – Present

DigitalBuzz LLP

- Leading frontend development of a multi-role SaaS CRM platform serving sales, marketing, and admin users across the organization
- Architected a shared component library of 30+ UI elements, reducing code duplication by ~40% and accelerating new feature delivery
- Built interactive dashboards with real-time filtering, sorting, and pagination handling 10,000+ records efficiently
- Improved rendering performance by ~30% using useMemo, useCallback, and React.memo — reducing page lag on heavy data views
- Designed scalable API integration layer using Redux Toolkit's createAsyncThunk, standardizing async state handling across 15+ features
- Building a real-time in-app chat module using WebSockets (Socket.io), enabling live communication between CRM users

Frontend Developer — July 2023 – Feb 2025

DigitalBuzz LLP

- Independently developed 5+ feature modules for the SaaS CRM including leads management, campaign tracking, and user settings
- Built a configurable data table system (React Table) with sorting, filtering, and pagination — adopted across 8+ modules platform-wide
- Designed and delivered campaign analytics dashboards giving marketing teams full visibility into open rates, clicks, and conversions
- Integrated 20+ REST APIs using Redux Toolkit's createAsyncThunk, with unified loading/error state handling for consistent UX
- Reduced unnecessary re-renders by introducing memoization patterns and component-level code splitting across key modules

Junior Frontend Developer — Jan 2022 – July 2023

DigitalBuzz LLP

- Built 15+ reusable UI components (forms, modals, buttons, cards) using React and Tailwind CSS, aligned to design specifications
- Implemented end-to-end client onboarding flow including OTP-based verification, reducing manual signup errors significantly
- Integrated REST APIs for leads, campaigns, and payment workflows — handling success, error, and loading states cleanly

- Collaborated in a 5-person agile team using Git (feature branching), Jira for sprint tracking, and Postman for API testing

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Redux Toolkit, TypeScript, Tailwind CSS, React Router, React Table
API & State Management: REST APIs, Axios, createAsyncThunk, Global State Management
Real-time: WebSockets, Socket.io
Tools: Git, GitHub, Jira, Postman, Figma (basic), npm/yarn
Practices: Agile/Scrum, Component-driven Development, Performance Optimization, Responsive UI

KEY PROJECTS

SaaS CRM Platform

- End-to-end CRM system with role-based access for sales, marketing, and admin teams; features include lead management, campaign dashboards, and reporting
- Improved system performance and scalability through optimized rendering and reusable architecture

Reusable Data Table System

- Configurable, scalable data table built on React Table — supports filtering, sorting, and pagination; adopted across 8+ CRM modules

Real-time Chat Module

- In-progress real-time messaging feature using WebSockets (Socket.io) enabling live communication between platform users

EDUCATION

M.E. Environmental Engineering 2016 – 2018
Pune University

B.Tech Civil Engineering 2011 – 2015
Bharati Vidyapeeth Deemed University

Diploma in Network Security 2012 – 2015
Bharati Vidyapeeth Deemed University

PRIOR EXPERIENCE

Assistant Professor – Civil Engineering Feb 2019 – Nov 2021
Siddhant College of Engineering

- Taught engineering fundamentals to 100+ students and mentored academic projects before transitioning to software development; brings strong analytical thinking and structured communication to technical roles.
